

App. No. 09/927,096
Amendment Dated: June 14, 2006
Reply to Office Action of March 17, 2006

In the Specification:

Please replace the paragraph on page 7, line 27 through page 8, line 2 as follows:

Query generation module 244 is configured to receive the query from the client interface 242, along with any additional information or limitations regarding the query, and build a standard query in a format understood by the search engine wrappers 230-236. The standard query is in a common format and includes sufficient information from the client's query to retrieve information related to the client's query from each of the registered search engines.
